Overall I really like this class because all lectures, are straight forward as per agenda. I really enjoyed the online course. and the format it was presented in. I really liked learning about gd&t. Today's, both lectures are helpful for us. Overall sessions are helpful

One practical session should be performed, in which we have to perform the task.

Session was excellent but can be more interesting by giving daily life examples in between.

Arrange Another programs

Practical session could have been more effective
