REPORT

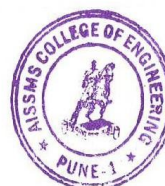

The guest lecture was heartily welcome by Vaishnavi Chumbalkar. The guest speaker Ms. Kiran Somvanshi is a business journalist at the Economic Times; she has published more than 1200 articles on Economy. In 2017 the US department of state selected Ms. Kiran for the Fulbright Humphrey fellowship at the Arizona State University. During her Fulbright fellowship, Ms. Kiran worked with the World Bank and the UNDP and also collaborated on research published in the Brookings Institute.

The session was very interactive and students participated enthusiastically. Opinions, thoughts, experiences and suggestions were shared by the expert Ms. Kiran with the attendees. As well as Scope in different fields after the graduation in BE Civil was discussed by the expert. The expert delivered the following topics in her presentation like Real estate/Construction, Redevelopment, Renewable energy, Transportation Engineering, Town planning, Agriculture, Entrepreneurship and Artificial intelligence.

“Sky is the limit if you are ready to take the risk”, Ma'am further added 'If u want to be in limelight be unique'. She advised students to develop themselves in such a way that companies should approach them and will to hire them. Her friendly and motivational talk made our students engrossed in the webinar. She motivated the students to do entrepreneurship. She guided the students for taking a precise and wise decision before staring up anything. She advised the students for perceiving passion rather falling prey in 'peer pressure'.

After the presentation, a question session round was held, Vaishnavi presented the questions to which very precise answer was given by the expert. The expert made sure that she clears all the doubts of the students.

Vote of thanks was given by Sanket Patil. Sonal Chavan Ma'am presented a small token of appreciation towards our valuable guests and the webinar was concluded at 1:00 pm by HOD Awari Sir by expressing his gratitude.

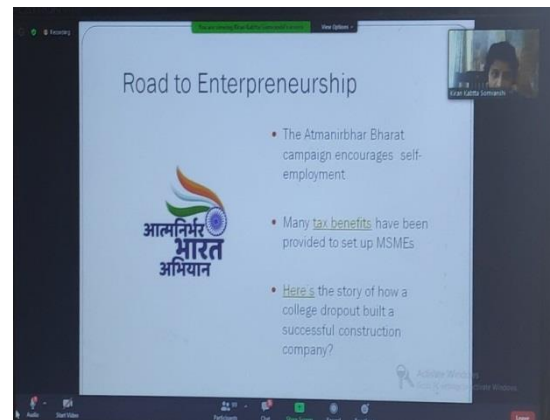

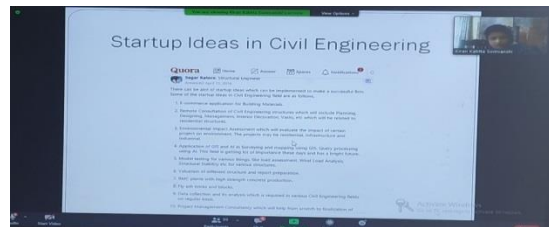

Feedback link was shared at the end of the webinar. As per the received feedback, participants found the session very interesting and helpful as the session helped them taking a brief decision about their future.

It was indeed a brainstorming session through which students could take away key points and induce them in their life and improve their skillset. At the conclusion of the conference, HOD Awari Sir expressed his gratitude.

Few Pictures from the session.

Feedback of Students

Sir it was really very good, and I can say I was fortunate to have it, actually we came to know some hidden problems like how to be mentally strong, which we actually didn't care, and also some of the aspect of preparation where we were lagging. So, in another word I would say that it was really very beneficial to the students who are really interested in it at least they get motivation and knowledge to way forward. Thankyou sir for all this.
