AISSMS

COLLEGE OF ENGINEERING

ज्ञानम् सकलजनहिताय

Accredited by NAAC with "A+" Grade | NBA - 6 UG Programmes

NAAC Criteria 1

NAAC Criteria -1.2: Academic Flexibility

1.2.1 Online MOOC programs like SWAYAM, NPTEL, Coursera etc. where the students of the institution have benefitted during the last five years

AISSMS College of Engineering recognizes the importance of providing students with diverse learning opportunities beyond the traditional classroom setting. The institution has embraced the flexibility of online education by allowing students to enroll in Massive Open Online Courses (MOOCs) offered by reputable platforms such as NPTEL, Swayam, Coursera, and others. Additionally, the college takes pride in being an active participant in the NPTEL/Swayam Local Chapter, facilitating a more seamless integration of these online courses into the academic curriculum.

Flexibility in Course Enrollment:

One of the key features of the academic experience at AISSMS College of Engineering is the flexibility provided to students to enroll in a variety of online MOOC courses. This initiative acknowledges the dynamic nature of education and empowers students to explore subjects beyond the traditional curriculum, allowing for a more holistic and well-rounded learning experience.

Involvement in NPTEL/Swayam Local Chapter:

The institute's affiliation with the NPTEL/Swayam Local Chapter adds significant value to the online learning experience. This collaboration fosters a supportive environment for students, providing them with resources and guidance to navigate the vast array of courses available. The Local Chapter connection enhances coordination and ensures a more seamless integration of online courses into the overall academic framework.

Curriculum:

Online MOOC courses, offered through platforms like NPTEL, Swayam, and Coursera, come with their own well-structured curricula and assessment procedures. These courses are designed by experienced instructors and institutions to meet high academic standards. These courses are generally of 4-week to 12-week duration. The assessment methods may include quizzes, assignments, exams, and occasionally peer-reviewed projects, offering a comprehensive evaluation of students' understanding and application of the course material.

AISSMS

COLLEGE OF ENGINEERING

ज्ञानम् सकलजनहिताय

Accredited by NAAC with "A+" Grade | NBA - 6 UG Programmes

Assessment Procedures:

The assessment procedures in these MOOC courses aim to gauge the depth of students' understanding and their ability to apply acquired knowledge. The following methods are commonly employed:

- **Proctored Online Tests:** These tests are conducted under secure, monitored conditions, often employing online proctoring tools. Proctored exams ensure the integrity of the assessment process by preventing cheating and unauthorized assistance.
- **Quizzes:** Regular quizzes serve as checkpoints throughout the course, assessing understanding of fundamental concepts. These quizzes are typically designed to be concise, reinforcing learning and allowing instructors to track student progress.
- **Assignments:** Assignments are crafted to evaluate the practical application of theoretical knowledge. They may involve problem-solving, critical analysis, and hands-on tasks relevant to the course material.
- **Exams:** Formal exams, whether mid-term or final, assess the overall grasp of the subject. These exams cover a broad range of topics, requiring students to synthesize information and demonstrate a comprehensive understanding of the material.
- **Peer-Reviewed Projects:** Occasionally, MOOCs incorporate collaborative projects. These projects are not only opportunities for creative application of knowledge but also encourage teamwork and communication skills. Peer reviews ensure a diverse perspective on the projects.

Online MOOC courses, with durations ranging from 4 to 12 weeks, present a structured approach to learning, allowing for in-depth exploration of subjects within a limited timeframe. The combination of well-designed curricula and diverse assessment methods, including proctored online tests, quizzes, assignments, exams, and peer-reviewed projects, ensures a thorough evaluation of students' comprehension and practical application of the course material. This approach not only upholds high academic standards but also caters to the evolving needs of learners seeking flexible and effective educational experiences in the digital age.

Department of Chemical Engineering				
Course Details: NPTEL Course Completed List				
S.N	Year	Name of Student	Course/Subject	Duration
1	2019-20	Sameer Erande	Phase Equilibrium Thermodynamics	8 Weeks
2	2019-20	Mahima Phade	Phase Equilibrium Thermodynamics	8 weeks
3	2019-20	Satyam Suresh Patil	Phase Equilibrium Thermodynamics	8 weeks
4	2019-20	Minal Bhojraj Borkar	Phase Equilibrium Thermodynamics	8 weeks
5	2019-20	Yashoda Patil	Phase Equilibrium Thermodynamics	8 weeks
6	2019-20	Pratik Chaure	Phase Equilibrium Thermodynamics	8 weeks
7	2019-20	Divekar Rutuja Shivaji	Phase Equilibrium Thermodynamics	8 weeks
8	2020-21	Diksha Kamlesh Mehta	Phase Equilibrium Thermodynamics	8 weeks
9	2020-21	Abhishek Kumbharde	Phase Equilibrium Thermodynamics	8 weeks
10	2020-21	Vrukodar Sunil Jadhav	Phase Equilibrium Thermodynamics	8 weeks
11	2020-21	Marale Utkarsha Kiran	Natural Gas Engineering	8 weeks
12	2020-21	Riteshkumar Rajendra Kolhapure	Principles and Practices of Process Equipment and Plant Design	8 weeks
13	2021-22	Shirsath Vaibhav Sanjay	Aspen Plus Simulation software- a basic course for beginners	12 weeks
14	2021-22	Riteshkumar Rajendra Kolhapure	Aspen Plus Simulation software- a basic course for beginners	12 weeks
15	2021-22	Devendra Amar More	Aspen Plus Simulation software- a basic course for beginners	12 weeks
16	2021-22	Bhumika Sagar kakade	Aspen Plus Simulation software- a basic course for beginners	12 weeks
17	2021-22	Tejas Deepak Kanade	Principles and Practices of Process Equipment and Plant Design	12 weeks
18	2022-23	Diksha Kamlesh Mehta	Aspen Plus Simulation software- a basic course for beginners	12 weeks
19	2022-23	Soham Shivaji Kumbhar	Basic Principles and Calculations in Chemical Engineering	12 weeks
20	2022-23	Mohammad Omar Mohammad Ilyas Shaikh	Unit Operation of Particulate Matter	4 weeks
21	2022-23	Gaikwad Sankalp Sunil	Unit Operations of Particulate matter	4 weeks
22	2022-23	Mahesh Raju Chavan	Aspen Plus Simulation software- a basic course for beginners	12 weeks
